The Only French resource with multi-levelled courses

We cover 3 levels in each course. Why? This way, different students can cover the same theme regardless of their individual level. You don't have to run around looking

for levelled books and videos. They're all right here in every course.

The easiest French videos

There are other online French platforms. But their videos are too advanced for our students.

The BP has a more "dynamic range" ie: a broader range of levels than any other platform.

From absolute beginners to advanced native French speakers.

The Only French platform which includes Canadian & World News, in levelled French

Planet French releases the News in levelled French each week. Why? Because the news is a great way to make French relevant and to expose your students to real life comprehensible input.

What's more relevant than the news to start authentic conversations in your French class?

Planet French and Booksmarts online Courses make up "The Complete Booksmarts Planet French online library", the BP.

"I am new in this role and I haven't really had the time yet to look at and try out all of your resources. So far I have just been using some videos, which are just great for my grade fours with the slow, clear French. I like how the videos are seasonal or related to current events. e.g. The videos about Ouragan Irma were very topical and interesting for us. Keep up the great work!" Clare, CESD73, BC

"I am truly enjoying having access to all of the videos and lessons and ebooks on Planet French. Thanks for all you do! Your materials are excellent and are very much appreciated! Bonne Journée!" Debbie Blais Jaffray Elem/Junior Secondary, BC

"I've been using Planet French for the past 4 months and I really like it. My students can access most resources (videos, news, e-texts,...). Both Core French and French Immersion students can access resources. And my students love the fact that they can actually understand when I show them a video or when we read a book. We just finished the unit (=Booksmarts kit) about Bonhomme Carnaval, which comes with a teacher's guide (with an AOT = culminating task), an e-book, and videos. My students were engaged and learned a lot. We also had a lot of discussions which was great for their oral French. We will continue to watch the news, and we will use the Booksmarts kit "Le Monde des Animaux" during our study of "Habitats". There are also videos that I will integrate in my health unit on nutrition. And I haven't explored all the resources yet!" Agnes MacNay Gr.4 FI Room 5 Notre Dame School, ON

"J. Lattanzio, French teacher in Dundas "I really liked the layout of this new book with the three different levels of reading difficulty colour-coded , the interesting historical facts found within, the various dialogues that could be easily acted out by students to practice their oral skills, and all of the colourful pictures. My students enjoyed the video very much and are engaged with all the activities that Guy supplied. They are motivated to practice all four skills (reading, writing, listening and speaking) and engage with each other in a much more dynamic way."

Margie James, French teacher in Ontario, says: With the different color coded levels, it was really neat that I had it all in one pack...it's hard to differentiate all the time...And the videos really helped as they were able to use all the visual cues...it's great !

Thanks so much - btw I LOVED the zombies video!" "Madeline Turan

I showed your site at "Parents Night" and they were thrilled! My students love Planet French! We are doing clothes in 8th grade so I had them watch the segment on "Les vêtements de vélo" and answer a questionnaire about it. Merci pour tout! Nicole Baker
